

ProtoFab

ProtoFab uses stock radius arms from the 1966-1979 Ford Bronco to create our Dana 30/44 Extended Radius arms. If you have purchased a set of our Dana 30/44 Extended Radius arms and intend on sending in your cores for a refund, please make sure they meet the requirements before sending them in.

Condition of Cores

Cores must be free of rust destruction such as pitting (surface rust is ok). If you are unsure if your cores are acceptable, you can always send an email to info@protofab4x4.com with a picture of your cores. Please list any potential concerns you have. If we receive cores that we cannot use, we will not refund your core deposit so please do not send cores that you wouldn't want us to use on your new extended radius arms.

Shipping

To save on shipping, you can cut the stock arms down. Please measure 10" from the end of the "C" and send that piece in. You can go to any UPS Store or other shipping store and have them box them up and ship them for you.

Note: If you do not have the means of cutting down your cores, that is ok, we can accept full size cores as well! Please note, we do not need you to send in the c-caps with your cores. You will need those to mount your new extended arms, so please keep them. You can ship your **acceptable** cores to:

ProtoFab
20295 E Conestoga Dr
Mayer, AZ 86333

If you have any questions, please do not hesitate to reach out. We can be reached via phone at 928-632-0216 or email at info@protofab4x4.com. Thank you again for your Extended Radius Arm purchase!
